George Michael Cohen : Art History Essentials (Essentials Study Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Art History Essentials (Essentials Study Guides):

4 of 4 people found the following review helpful. Just Okay...By NodoubtdaisyThis concise Art History Guide provides a very basic overview of art through the ages. It's in black and white and the examples are very small. It would be helpful for the Intro to Art History student who needs a basic breakdown of the timeline. As most students will attest, a college level art history course gets kind of overwhelming with all of the details. This book offers a

student to take a step back and learn the most important points.

REArquo;s Essentials provide quick and easy access to critical information in a variety of different fields, ranging from the most basic to the most advanced. As its name implies, these concise, comprehensive study guides summarize the essentials of the field covered. This book explains the different art movements such as Baroque and Neoclassicism, and describes the kinds of materials that were used to create the various works. This book is an ideal study aid for students who must familiarize themselves with major works of art, how they were created, and the affect they had on world history.
