Includes so many well-known songs scaled back to an intermediate level. Lots of fun. We pretty much look for Hal Leonard arrangements exclusively as they never disappoint. 0 of 0 people found the following review helpful. Just what I needed By Chip Palmer! I've been working at the piano for a few years now and found this book to be just right to challenge and keep me interested. The 50 pieces are arranged in alphabetical order and range from advanced beginner to intermediate in difficulty. I plan to check out some of the other books in this series. 1 of 1 people found the following review helpful. Five Stars By Constance B.
