I grew up very close to this neighborhood and drove past these architectural gems frequently. It was an easy way to get to Silver Spring from Rock Creek Hills. My parents knew about the history and sometimes we took a detour to see more. Now I have some beautiful images to preserve the memories as I moved away years ago. I always loved the Pagoda! I will enjoy reading this. It always felt like a hamlet to me.0 of 0 people found the following review helpful. Forest Glen HistoryBy W. JOYCEon time and good quality7 of 7 people found the following review helpful. Very Detailed and Hard To Put DownBy J. S. FaganI have been a resident of Forest Glen for over 6 years and have always been intrested in the rich history of the land around my house. This book has many photographs which I have never seen printed in other books about the region. Each picture is described in detail

and the authors tell the reader what exists on that spot today if the structures have changed. If you live in Forest Glen and care about history then get this book.

Forest Glen, Maryland, a sleepy suburb of Washington, D.C., has weathered the arrival of the railroad, construction of a summer resort, development of a fashionable girl's finishing school, and the establishment of a U.S. Army base. Throughout these times there has always been a close-knit community of homes and people that were often overshadowed by the many diverse events and changes that prevailed here. The focal point of the community--one of only a few extant eclectic architectural follies in the United States and consisting of many international styles--is listed on the National Register of Historic Places as the National Park Seminary Historic District.

About the AuthorCompiled from personal collections and years of research, authors Rich Schaffer and Ric Nelson, both life-long residents of Forest Glen, have created a visual history of with over 200 archival images of the region, highlighting little known facts and interesting anecdotes. Both Rich and Ric have been advocates of preserving Forest Glen and supporters of the local non-profit group Save Our Seminary, which has worked for many years to ensure the future of the historic district.
