Jeff Apter : Fornication: The Red Hot Chili Peppers Story before purchasing it in order to gage whether or not it would be worth my time, and all praised Fornication: The Red Hot Chili Peppers Story:

0 of 0 people found the following review helpful. Lot of good information on the PeppersBy LiamEnjoyed reading the book. Lot of facts about the Peppers. Most of us don't have time to read every article about the Peppers so this book does the job for you. Book is well sourced if you want to do some follow up. I would recommend it to any current or starting Peppers fan.0 of 0 people found the following review helpful. LameBy WFSBoringly written. Reads like someone took google searches and assembled a narrative. Maybe that's what he did?0 of 0 people found the following

review helpful. Five StarsBy Cessna89811Love my RHCP.

Here is the extreme story of the indestructible LA group from their early funk days to eventual success as one of America's top-selling bands. Despite an epic reputation for exhibitionism, drug taking and debauchery, through it all the Chili Peppers have continued to produce records that shock, challenge and intrigue their fans. Author Jeff Apter has interviewed dozens of people - many speaking openly for the first time - who have moved in and out of the Chili Peppers' circle over the past three decades. He has spoken with former Chili Peppers, life-long friends, classmates, family members, album producers and music business insiders, as he plots the band's rise from Hollywood 'latchkey kids', willing to test-drive any drug or woman they could score, to the camomile-tea sipping superstars of today, whose only true family is this band.

About the AuthorJeff Apter is the former editor of the Australian Rolling Stone. He has been writing about music for the past 14 years. He is the author of Tomorrow Never Knows: The Silverchair Story.
