**Andre Manseau : Innovation in Construction: An International Review of Public Policies** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Innovation in Construction: An International Review of Public Policies:

How can innovation in the construction industry be strengthened? What instruments and approaches are being used by governments to promote it? What works and under what circumstances? These key questions have profound implications. This book presents a framework for the analysis of innovation models and systems in construction and an

international comparison of these systems, with a focus on their application in practical policy development.
