**Matt Smith : Intermediate Blues Guitar (Complete Blues Guitar Method, 2)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Intermediate Blues Guitar (Complete Blues Guitar Method, 2):

0 of 0 people found the following review helpful. iquest;Where are the tracks?By FernandoI can't understand how this book can come without the original sound tracks. I think it should not be sold without them. Had I known I wouldn't have bought it!3 of 3 people found the following review helpful. Lots of theory in this bookBy Castellon Bedoya Fredy AugustoLots of theory in this book, but on the other hand you need some theory to make great music. Mostly is about chord progressions and blues scales which is something that gives the blues some personality.0 of 1 people found the following review helpful. Five StarsBy videorovgood

This book is great for the musician who knows the basics of blues guitar and is ready to take the next step. After a quick review of the fundamentals, the topics include blues fills and phrasing techniques, non-scale tones, chord

extensions and substitutions, RB, funk blues and more. The final section is devoted to licks in the styles of master blues guitarists. All music is shown in standard notation and TAB, and the CD demonstrates the examples in the book. 96 pages.
