David Pogue, Lesa Snider : iPhoto '11: The Missing Manual (Missing Manuals) before purchasing it in order to gage whether or not it would be worth my time, and all praised iPhoto '11: The Missing Manual (Missing Manuals):

60 of 62 people found the following review helpful. iPhoto 11 - another great Missing ManualBy Patricia V. WhitacreHaving been accustomed to iPhoto 9, I had difficulty adjusting to iPhoto 11 -- major changes! Had to wait 3 months for new Missing Manual, but it was worth the wait. Like all M Ms we have found so helpful, with a touch of humor while simplifying the complexities of our various Mac updates, this is most helpful. However, there was one problem I still couldn't resolve, so I emailed Lesa Snider (she invites emails!). Bingo! She replied with the solution! That is standing behind your product!5 of 5 people found the following review helpful. Excellant iPhoto '11 BookBy Bill A. BeltI have tried to load and arrange pictures on my Mac for quite some time and even though I thought I had followed the video clips provided by Apple I never seemed to get everything out of the system that i thought was there. I had more than 15000 photos that i needed to name and file in an album plus events and places on the Mac. This little book gave me the direct answers to those filing questions. I have used it to name, tag, file and place about

75% of my photos on this Mac and now I am well pleased. I still have a lot to learn and just browsing through this manual there were dozens of things I learned that iPhoto will do that I did not know about. You can always view the Mac videos however like in my case you have got to know what to ask for, in order to view them. Now I have a hardcopy manual that I can refer to instantly. Well written, easy to understand and easy to find your subjects. 0 of 0 people found the following review helpful. Very informative book By GHI It provided the answers to the problems encountered with an update of iPhoto. My husband just loved that he is now able to fix the problems with his photos.

With better ways to get your photos online and new options for creating printed projects, iPhoto '11 makes it easier than ever to transfer photos from a digital camera, organize them, and publish, print, or share them in maps; but there's still no printed manual for the program. Fortunately, David Pogue and Lesa Snider team up in this witty, authoritative book that should have been in the box. Organize your collection. Discover all of the options for grouping your pictures; by events, in albums, or based on where it was taken. Sharpen your editing skills. Learn how to use iPhoto's beefed-up editing options, including its Photoshop-like adjustments panel. Share images online. Get your photos to everyone on your list by publishing them to Flickr, Facebook, and MobileMe. Dive into creative projects. Have fun building slideshows (with music), gift books, calendars, and cards.

About the Author David Pogue is the weekly personal-technology columnist for The New York Times and an Emmy-award-winning tech correspondent for CBS News. His funny tech videos appear weekly on CNBC. With 3 million books in print, he is also one of the world's bestselling how-to authors. In 1999, he launched his own series of amusing, practical, and user-friendly computer books called Missing Manuals, which now includes more than 100 titles. Lesa Snider is an internationally acclaimed speaker and the author of Photoshop CS5: The Missing Manual. She writes a monthly column for Photoshop User, Photoshop Elements Techniques, and Macworld magazines. In addition, Lesa is a stock photographer and chief evangelist for iStockphoto.com, and founder of the creative tutorial site www.GraphicReporter.com. Lesa has recorded many training videos including "From Photo to Graphic Art," "Practical Photoshop Elements," "Photoshop Elements for Photographers" (all at www.KelbyTraining.com), and "Graphic Secrets for Business Professionals" (www.Lynda.com). She teaches in the Denver/Boulder area for Mike's Camera (www.mikescamera.com) and hosts her own European River Cruise workshop, "Digital Photography on the Danube" (www.photocruisewithlesa.com). She also speaks at conferences such as Photoshop World, Mac Computer Expo, Macworld Expo, Geek Girl Boot Camp, Santa Fe Workshops, and a slew of Mac User Groups (she's a proud member of COMUG.com and NCMUG.org). You can email her at lesa@graphicreporter.com.
