Ireland is a country notably rich in archaeological sites and this guide is the ultimate handbook to its heritage. Covering the entire island from Antrim to Wexford, Dublin to Sligo, this latest volume in the acclaimed Oxford Archaeological Guides series provides over 250 plans and illustrations of Ireland's major archaeological treasures and covers sites dating from the time of the first settlers in rephistoric times right up to the seventeenth century. Begining with a concise and readable introduction to the history of Ireland, the book offers an unparalleled journey through the major sites and places of interest. Each chapter combines specific regional information with historical background and essential survey facts for the visitors to the area and provides detailed descriptions of the major archaeological sites within each region, arranged alphabetically and including travel directions, historical overview, and details of the sites' major features and the latest available archaeological evidence.
