Sullivan does a balanced job providing context for each cover (time period, intended audience, etc) with funny observations. For example, guessing who is supposed to be portrayed on some of the odder covers. Noting the copies of Northanger Abbey that gush about its gothic suspense (wait, did no one read the book?). The influence of YA Fantasy Romance on contemporary Austen covers.If you have a loved one that keeps a "nice" copy and a "reading" copy of Pride and Prejudice, they'd probably enjoy this.0 of 0 people found the following review helpful.
