I can't say you'll be able to build your own Japanese style home right after reading this, but it's definitely a good insight into the styles and aesthetics of Japanese homes. The pictures are great, very inspiring, and I'm definitely going to use some of the ideas in my own future home. No problems with shipping, delivery time, or quality issues. 2 of 2 people found the following review helpful. Great Ideas By JuJuBeans Currently, I'm gathering design ideas for my future apartment. I have always admired the Japanese style, both modern and traditional, and so decided to purchase this book to gather room ideas. It's a great resource, with many wonderful pictures and pleasant descriptions, ranging from tea-rooms to gardens. I look forward to using some of these ideas while furnishing and decorating. 2 of 2 people found the following review helpful. Lovely book! By Debora Huggins Very nice.
