For those who want to learn about Japanese dolls, especially those collectors and those who may do appraisals or sell to the Japanese doll market, buy this book! The explanations are very good. And, the pictures are fantastic and show the detail extremely well. Enough said! Buy this book!2 of 2 people found the following review helpful. The kind of book I wish I had writtenBy Stella SavinThis is an amazing book, for specialists and non-specialists alike, although the non-specialists must have a high interest in dolls and some knowledge of Japanese culture to fully enjoy the book. A serious look at Japanese dollsBy Richard Garriott StejskalAlan Pate's second book on Japanese dolls gives the occidental reader a real understanding of the Japanese doll within the context of Japanese culture. The work would

be cheap at 2X the price. The photographs are stunning and worth the price of admission. For the collector serious or casual this (and his earlier work, Ningyo) are all one needs. Most highly recommended.
