Hal Leonard Corp. : Jazz Treasures for Solo Guitar before purchasing it in order to gage whether or not it would be worth my time, and all praised Jazz Treasures for Solo Guitar:

These books have the melody line, stock chords and lyrics, with the chord solo arrangement in both standard notation and tab -- the top staff is the original and the lower staff the chord melody. If you need the fake book "original", just read the top staff and chord symbols. These are performance standard, professional arrangements, melodic and rich in tone, yet they are easily within the grasp of an intermediate level guitarist. The grips are very usable and there are no crazy stretches. Each note of the melody has an associated chord, so you could easily simplify the arrangements by using some single notes. I wish I had these books years ago.0 of 0 people found the following review helpful. Five StarsBy BenGreat classics!0 of 0 people found the following review helpful. Tons of funBy OoOoOoOThese books are pretty fun to have around, some of the

progressions are very nice. Some are better than others, of course. Definitely a good buy!
