Abe Lagrimas Jr. : Jazz Ukulele: Comping, Soloing, Chord Melodies before purchasing it in order to gauge whether or not it would be worth my time, and all praised Jazz Ukulele: Comping, Soloing, Chord Melodies:

0 of 0 people found the following review helpful. Lots of serious chord workBy James R DawkinsVery thorough..lots of serious chord work and information.29 of 30 people found the following review helpful. Do you love Jazz?By MtBoyI don't want to discourage anyone but if you don't know what the meaning of "music theory" is, wait until you do before you buy this book. That said, Mr. Lagrimas is a multi instrumentalist and ukulele master who has managed to put the fundamentals of jazz ukulele into print. I am less than 1/3rd through this book and I know that I will not only be a better player but will have a much better understanding of jazz and music in general because of it. I have a good collection of ukulele workbooks and this one rates at the very top. If you like Jazz and you have a ukulele, you should have this book.0 of 1 people found the following review helpful. Three StarsBy Client d'Needs videacute;os tutorial to be interesting

(Berklee Guide). *Play jazz ukulele!* Learn the essential theory, concepts, and techniques to perform jazz. This book will help you to understand and play jazz harmonies and tension substitutions, and the principles for improvisation and accompanying other musicians. It includes traditional notation and tablature, and also introduces additional types of notation common in jazz. The accompanying online audio lets you hear the concepts and then practice them along with a jazz combo. By the end of the book, you will be able to play jazz ukulele in ensemble and solo settings.
