Pretty good tabs but not complete.By nickyfzrIts so cool to be playing Jeff Beck songs. They sound so difficult but are not that hard at least the basic song. I'm not saying I am playing exactly like Jeff but the book gets you in the ball park and is pretty accurate for most of the songs. It is missing little bits here and there but you really have to listen to the songs and fill in whats missing. Overall I think it's worth the money. I'm having a blast with it.2 of 2 people found the following review helpful. Blow by BlowBy CustomerKnew most of this album/CD by ear, was interested in learning/analyzing "Diamond Dust", which is good...was hoping the Max Middleton keys parts would be arranged more than they are.
