**Sharon Lawrence : Jimi Hendrix: The True Story of Jimi Hendrix** before purchasing it in order to gage whether or not it would be worth my time, and all praised Jimi Hendrix: The True Story of Jimi Hendrix:

1 of 1 people found the following review helpful. A friend remembers the REAL JIMI HENDRIX By Whipporwill Knowing little about Jimi Hendrix or his music I decided to read this book because of the title. I found it hard to put down as it begins with sadness of his being removed from the only family he knew and raised with by his real father. He uses his abilities and music to survive. His guitar playing becomes known and his short ride to fame is told with sadness . HisLife is cut short and the greed of family members, business agents, musicAgents, Lawyers, and

others take his fame and fortune. Recommended 1 of 1 people found the following review helpful. Jimi Hendrix: The True Story By Terri This was a well-written book that exposed Jimi's life events that occurred after his death. It was sad to read about how exploited he was/has been. He was gone way before his time was such a beautiful freak of nature. Loved his music 45 years ago and still do. 1 of 1 people found the following review helpful. He made great music but had a tough life By Mike Breeze I was 15 and in the 9th grade when I bought my 1st Hendrix album in 1969. One of the best albums I ever owned. His music was different, cool and Very different. After being without Hendrix music for the past 47 years I recently downloaded Digital Electric Maryland. Wow. So when I saw this book available I downloaded it and enjoyed it very much. He left the world some great music. And this book aptly describes his rough life. It was a good read.

The genius we never understood. . . . The man we never knew. . . . The truth we never heard. . . . The music we never forgot. . . . A revealing portrait of a legend by a close and trusted friend.
