Reading this on a digital device makes it next next to impossible to see. If you use a Kindle app, you can't re-size the pages to make the markings readable. Do yourself a favor; skip the Kindle version, spend a few bucks and get the sheet music copy. You'll be able to see more than one page at a time and make copies to have multiple pages spread out on the music stand.

No faults here. Its a good collection. Joe practiced Guitar thirteen hours a day and I'd like to see what songs and things he did all that time, but the end result is this. Joe is different from many guitarist as his songs are very melodic and you can easily remember them and hum them. Nice interview questions within, but no pictures of Joe drinking coffee and practicing for thirteen hours a day. And Joe is "model modest", he knows he is one of the best

players around, but doesn't let that make him egocentric! Thanks Joe for always sharing with your fans and students over the years. 0 of 0 people found the following review helpful. I love Satch and this seems to be the best or ...By guit techI love Satch and this seems to be the best or at least one of the best musically notated in both tab(for those who use this form of reading music) and standard notation(for those like myself) who want to know every nuance in the key factors of this outstanding and very accomplished guitarists playing. Do yourself a favor and read the iacute; interviews and quotes from the man himself,you will find him quite intelligent and very humorous.This was delivered on time and it looks great no problems here!!!!

(Play It Like It Is). Note-for-note guitar transcriptions with tab for 29 Satch favorites. Features a great interview, Satriani quotes and a discography.
