Paul Du Noyer : John Lennon (Stories Behind the Songs) before purchasing it in order to gauge whether or not it would be worth my time, and all praised John Lennon (Stories Behind the Songs):

By Robert Marchese I love this series. I've read the Neil Young one, which was quite laconic and pedestrian to be honest. I also read the Bob Dylan one, which was, quite simply, the best book on Dylan I've ever read - and I've read a lot on Dylan! This particular book in Lennon is another fine addition in the series. It's mostly well written and very informative. I know a lot about Lennon and his music, but, like with the Dylan book, I learned a lot about the man and his music. Highly recommended.

By Irving Faqua This book was written well, informative and very easy to follow. Details of basically the albums and songs but some good tidbits of

background info to link it all together.

There are many books about John Lennon's life and about The Beatles' music. What is often overlooked is the extraordinary solo work that John produced in the final decade of his life, 1970 to 1980, between the end of The Beatles and his murder in New York City.

About the Author Paul Du Noyer was born in Liverpool. He began as a music writer for the NME, moved on to edit Q magazine and in 1994 launched the rock monthly Mojo. He wrote the definitive history of his home town's music, Liverpool: Wonderous Place, and is a regular writer for NME, Mojo, Q and The Word. He lives in London.
