John W. Schaum : John W. Schaum Piano Course: B -- The Blue Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised John W. Schaum Piano Course: B -- The Blue Book:

9 of 9 people found the following review helpful. Simply the BestBy LynThe Schaum Piano piano series is a very professional, methodical, yet uncomplicated way to learn piano. I am teaching myself (with occasional input from a neighbor who is an accomplished pianist) and preferred to explore the traditional routine via Schaum, the one my children used when they were learning, instead of the methods typically used for adult courses. I have been able to complete fluently, with practice, of course, the various levels beginning with the most basic with very little difficulty because the instruction is clear and there are diagrams and pictures to enhance understanding. Schaum has been in the business of educating budding pianists for many, many years, and that is obvious from the systematic approach taken in the books. By starting at the beginning of each book and working my way carefully according to instruction through

each piece, I feel very comfortable and confident by the time I get to the end of the book. The book arrived very soon after I ordered it, which I expected, because . is very reliable. 0 of 0 people found the following review helpful. Five Stars By TleBook B after Book A. Can't complaint. 0 of 0 people found the following review helpful. Five Stars By Pat R. Wife loves it

A time-honored tradition just got better! The John W. Schaum Piano Course has been newly revised with 100 percent new engravings and typesetting, color highlighting for concept emphasis, updated song titles and lyrics, and full-color illustrations.
