**Marc Mompont : John Wayne: A Photographic Celebration** before purchasing it in order to gage whether or not it would be worth my time, and all praised John Wayne: A Photographic Celebration:

3 of 3 people found the following review helpful. Loved This Book!!By TroutmanLoved this book! You open it anywhere and on the left page there is a quote by either the author or someone in the movie business, politics, former President or the Duke himself. On the right page (facing the quote) is a photo of the Duke at various stages of his career/life. When this arrived, I opened it up to browse thru it quickly before I left for an appointment. One page led to another and another. I said to myself, "I have got to put this down and read it later or I will be late for my appointment". I kept saying, "just one more page and then I will quit". A few hours later I finished the book after canceling my appointment with some lame excuse like, "the dog got sick and barfed all over the carpeting". I keep the book on the coffee table in my John Wayne room (home theater John Wayne memorabilia) and invariably my guests who come over to watch a movie, pick it up to thumb thru it and end up reading most of it. God, I miss the Duke! Clint is a close second but it won't be long before he is gone also.1 of 1 people found the following review helpful. It's okayBy AuntieBI am a huge John Wayne fan and although it was fun to thumb through this book have to agree with some of the other reviewers when I say that the proof reading was horrible. I don't know how this happened and feel like it is a disservice to John Wayne to release something so poorly edited. I also think the price I paid for the book was high for what I got.1 of 1 people found the following review helpful. It's the Duke, what more do you need to sayBy Janet collinsI bought this book for my husband who is a big John Wayne fan. He collects all kinds of John Wayne memorabilia. He was so into the book that I read it too. The pictures are wonderful and I particularly loved all the John Wayne quotes. Any of the Duke's fans will enjoy this book.

John Wayne's name is synonymous with not only the tough cowboys of the Wild West, but also the all-American war hero. Rising beyond the standard recognition that most Hollywood actors get, Wayne achieved an unparalleled level of success as a walking and talking symbol of America. John Wayne: A Photographic Celebration collects many photographs from his long and celebrated career. Annotated with quotes from the man himself, as well as quotes about

him from his loved ones, this book follows the course of his career from his breakthrough role in Stagecoach to his Oscar-winning performance in True Grit. One of the few conservative republicans in Hollywood during his time, John Wayne was a controversial figure. He was often meticulous about his image, believing that his status as a patriotic icon was a responsibility. Beautiful full-color photos will offer insight to this larger-than-life actor, both behind the scenes and in front of the camera. This book will delight both the casual and die-hard John Wayne fan, as well as anyone with a love for Westerns and war films.

About the Author MARC MOMPOINT is an avid fan of John Wayne and a first-time editor. He currently lives in the Bronx, New York.
