However, I had purchased it for a younger student who is Catholic and she didn't recognize many of the songs. However, as a Protestant and long time church musician, I did.5 of 6 people found the following review helpful. This is probably a good book. Like any good "fake" book it is kept simple allowing for you to add anything you think is missing. The first time I heard about a "FAKE" book was from a studio musician who used one in the 70's for pool parties and even used it in the studio when recording some songs. If you're looking for music that plays a full score of the song you want, this is not that book. If you want a book with the

melody and some simple chords, this is a great book and I also find my eyes straying to the songwriter and year it was written.
