And its O.K , you can just use the song to feel better in your own life so I dont take that much notice of what other people think is the "real meaning of the song"2 of 2 people found the following review helpful. Good bio on the Mumford and SonsBy S. BergquistI have been a fan since

their first records came out. This is a pretty complete bio, including info on the parents. It explains a lot about how they got where they are and how their music came about. It is worth reading if you want a lot of info and background. 0 of 0 people found the following review helpful. Awesome book
By Heather Klepinger
This is a very detailed book going all the way back to Marcus' s parents meeting. It tells how they met and formed this is a must have for any fan.

An in-depth look at how Mumford Sons rose from the West London folk scene to worldwide emulation. This book details their debut EP *Love Your Ground* and their performances in small venues in the UK and the US which exposed enthusiastic audiences to their music and built support for an eventual album. Looks at how their debut album *Sigh No More* scored chart success in multiple countries and the band's numerous awards including two Grammy nominations. Fully chronicles the lives of band members Marcus Mumford, Ben Lovett, Country Winston Marshall and Ted Dwayne; a must-read for fans new and old.
