John Hiatt : The John Hiatt Collection Songbook (Strum It Guitar) before purchasing it in order to gage whether or not it would be worth my time, and all praised The John Hiatt Collection Songbook (Strum It Guitar):

If it's advertised to have 17 songs, it should have 17 songs. My copy only had half the songs. Songs were missing, pages not in order, 3 songs repeated, what the what! Pros..the songs I did get were great. I have no complaints there. Those song were as advertised, but quality control and proof-reading must not exist for this publisher. I love John Hiatt and have no beef with him The publisher...well that's another story. Had the book had all the songs I would have given it 5 stars. Had the book had all the songs I would have been happy and it would have been as advertised.0 of 0 people found the following review helpful. This could have been so much more user friendlyBy Carol C. PetersonI've been playing guitar for many decades and I've seen many songbooks. While this book has all the songs in it, it is a real pain to use.1. I suppose it is better to give the chords at the beginning

of the song but when there are five or more pages, why not give the chord tabs all the way through the song. I've had to buy a chord stamp and ink and write them in. Most annoying.2. And what about just stacking the verses with the music rather than tucking them at the end of the last page?Not worth sending back but pretty disappointed.0 of 0 people found the following review helpful. Five StarsBy Danny Slaven AhlfeldStop sending me advertisements for shopping I know what and when I want products. I don't need help shopping.
