This is just a scan of a book too- you cannot jump to somewhere from the contents and you cannot highlight or even bookmark pages.0 of 0 people found the following review helpful. A Wonderful BookBy P G MALONEYGreat book, songs and illustrations.0 of 4 people found the following review helpful. Not what I expected...By Wellington HowardI bought this with the notion that I could learn to play Leadbelly on my guitar. There

are some simple chord progressions that go with the lyrics, but I think it is for the vocal melody.

More than 70 songs by Huddie Ledbetter, with chord names and musical transcriptions by Jerry Silverman and biographical notes by Pete Seeger, Woody Guthrie, Fred Ramsey, and Charles Smith. Includes: Midnite Special, Backwater Blues, John Henry, and House Of The Rising Sun.
