Lester Young : The Lester Young Collection Songbook: Tenor Saxophone before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Lester Young Collection Songbook: Tenor Saxophone:

By Dave Pfeiffer Fortunately I have recordings of most of these transcriptions and after multiple listenings I can attest to the accuracy of the notations. This is a tenor player's dream book, not to copy Prez note for note, but to actually see his brilliance as an improviser on paper. 6 of 6 people found the following review helpful. Solid, Accurate Transcriptions of Great Performances By mingus500 Of course, I'm an amateur, so I can't play everything in the book as written. However, everything I've played (or read while listening to the music) is accurate, and includes notation for bends, palm key usage, etc. There are about 20 or more songs in this collection. A few are from the Billie Holiday recordings. Many more are from "Complete Decca Recordings" of Count Basie and "The Complete Aladdin Recordings" of Lester Young. If you own these two collections, you will have the recordings of over half the songs in this book. I also have the Coleman

Hawkins Collection from this publisher. Most of it is WAY beyond my abilities right now. Much of this material is, too, but it seems more attainable. 1 of 1 people found the following review helpful. Good book By Doc You'll get to see how Lester worked his way into a tune. Good book for any improviser. Sadly, some of my favourite tunes were not included.
