P. Agid, J. Tarondeau : The Management of Opera: An International Comparative Study before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Management of Opera: An International Comparative Study:

This book presents the current and future issues facing opera houses and opera companies. Problems in different environments need different solutions. In particular, it opposes the American method of managing cultural institutions,

preferring a European one where public support and funds plays a major role.
