David Brody : The Mandolin Picker's Fakebook before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Mandolin Picker's Fakebook:

1 of 1 people found the following review helpful. Really can't make out the tabs
By jake I have good eyesight and can barely read the numbers. The tiny bold type on the bold lines makes it nearly impossible to distinguish numbers. Is that a 2? a 4? I can't tell. Looks chock full of songs but I can't make any of it out.
0 of 0 people found the following review helpful. Don't buy - Too small to read!!! You've been warned!
By Texas Ruegg Ordered this for my iPad in Kindle version to take to jam sessions, but the font is too small to even read the tab! So buyer beware, this is not usable and too small to read. I figured I could enlarge it, but that is not possible. Very disappointing and I will be seeking my money back.
0 of 0 people found the following review helpful. Binding is terrible, print could be clearer
By Scott Small Content is great but type is fuzzy and paperback spine is *horrid* compared to the old plastic comb binding. Plan

to run it through a bandsaw and punch it for binder rings, or a lot of cursing.

Over 250 jigs, reels and hornpipes from the British Isles and the USA. Includes breakdowns, rags and marches from Scotland and Nova Scotia/Cape Breton, Texas Style and much more.
