I am from Maine and have been visiting the area since I was a kid. This book has special meaning to me.

The Moosehead Lake region has long been a place where travelers go to escape. In the first half of the twentieth century, the region became a mecca for hunters and fishermen, as well as for travelers looking for rest and relaxation at popular resorts such as the Mount Kineo House. The Moosehead Lake Region: 1900-1950 uses vintage photographs

to tell the story of this Maine retreat. The images depict visitors and residents of Greenville, Shirley, Rockwood, Beaver Cove, and Kokadjo; the lumbering era in the North Woods; and the locomotives whose whistles pierced the wilderness.

About the Author Author Everett L. Parker has written several books about the Moosehead Lake region, but *The Moosehead Lake Region: 1900-1950* is his first on the region's history interpreted through a camera lens. The images have been selected from the thousands found in the archives of the Moosehead Historical Museum, where Parker has been executive director for nine years.
