Frances Clark, Louise Goss, Sam Holland : The Music Tree: Activities Book, Time to Begin (Frances Clark Library for Piano Students) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Music Tree: Activities Book, Time to Begin (Frances Clark Library for Piano Students):

0 of 0 people found the following review helpful. Good for beginnersBy ObrnGood for beginners, although it is a little elementary for someone starting at age 10. Still it's getting the job done.3 of 3 people found the following review helpful. great beginning piano theory bookBy Marla YorgasonThis book is great for younger music students. My favorite part is how it teaches children how to conceptualize steps, skips - intervals in general. Lots of activities for them to figure those things out. I'm a piano teacher, and this one gets the point across.1 of 1 people found the following review helpful. Book is easy for children to understandBy JessicaBook is easy for children to understand, also very aesthetically pleasing. It's great for early beginners; little children love coloring activities! So grateful how this book makes theory learning fun and enjoyable for my students!

Time to Begin Activities is colorful, cheerful and a delight for students to complete either at the lesson or at home. Activities reinforce reading, rhythm and theory introduced in Time to Begin. Each unit includes at least one game-like activity. As students near the grand staff, note names direction and intervals become an integrated activity.
