Boyce Thompson Jr. : The New New Home: Getting the house of your dreams with your eyes wide open before purchasing it in order to gage whether or not it would be worth my time, and all praised The New New Home: Getting the house of your dreams with your eyes wide open:

1 of 1 people found the following review helpful. He knows his stuffBy PeterBoyce Thompon certainly has the chops to take on a big broad subject like this and he doesn't disappoint. He covers the gamut of today's housing market,

focusing on what's hot and what to avoid (and how to avoid it!) when looking for a new home in today's market. Very informative and entertaining. Well worth the read for anyone in the housing market or working in the housing industry. Boyce knows his stuff! 0 of 0 people found the following review helpful. An enjoyable read
By LV Consultant
Mr Thompson is in a unique position to offer insight gleaned from his years involved with the home building industry, and while I don't agree with all of his findings, the information is well laid out and easy to follow...it is an enjoyable read and worth your time if you are interested in where the home building community is headed.
2 of 3 people found the following review helpful. Great book
hellip; decades of knowledge everyone looking to build a home should read.
By Paul
WII read The New New Home and really enjoyed it. It is the best documentary on American housing that I have read. I really appreciate how you wrote it for everyone to understand, and not just for industry folks. It really captured the dramatic changes that are occurring in both the building technology side, but also the service side, which is so important to consumers. (I spent 22 years in the business and know it well, you nailed it!). For anyone looking to understand our industry, this one is a must read. Well done. Paul

Today's new-home buyers face unprecedented opportunity and risk. Thanks to recent builder innovations and lower house payments, buyers have the opportunity of a lifetime to build the house of their dreams. Yet given recent history of unprecedented depreciation in home values, consumers venturing into the new-home market take a big chance. In *The New New Home*, Boyce Thompson, the editorial director of *Builder* magazine for 17 years, demystifies the challenges and opportunities facing new homebuyers. In it, he lays out the new green, high-tech, aging in place, space planning, and construction options available in today's market. He helps buyers determine which features will improve their living experience today and create value if they sell their home down the road. *The New New Home* is the one book that anyone contemplating buying or building a new home needs to read. It arms new-home buyers with the actionable information that they need to make intelligent choices.

Boyce Thompson's *The New New Home* aims to "demystify" the factors in play when it comes to building a new home in the current market, with special attention paid to environmental and economic factors that many buyers might want to consider when purchasing or building a new home. Oberman, *Weekly Book Scan*, *Realtor MAG* (Realtor MAG)
