Elizabeth Marie Cruz Petersen : Women's Somatic Training in Early Modern Spanish Theater (Women and Gender in the Early Modern World) before purchasing it in order to gage whether or not it would be worth my time, and all praised Women's Somatic Training in Early Modern Spanish Theater (Women and Gender in the Early

Modern World):

Drawing from early modern plays and treatises on the precepts and practices of the acting process, this study shows how the early modern Spanish actress subscribed to various somatic practices in an effort to prepare for a role. It provides today's reader not only another perspective to the performance aspect of early modern plays, but also a better understanding of how the woman of the theater succeeded in a highly scrutinized profession. Elizabeth Marie Cruz Petersen examines examples of comedias from playwrights such as Lope de Vega, Luis Veacute;lez de Guevara, Tirso de Molina, and Ana Caro, historical documents, and treatises to demonstrate that the women of the stage transformed their bodies and their social and cultural environment in order to succeed in early modern Spanish theater. *Women's Somatic Training in Early Modern Spanish Theater* is the first full-length, in-depth study of women actors in seventeenth-century Spain. Unique in the field of comedia studies, it approaches the topic from a performance perspective, using somaesthetics as a tool to explain how an artist's lived experiences and emotions unite in the interpretation of art, reconfiguring her "self" via the transformation of habit.
