Beautifully illustrated in full color plates from a variety posters ...By Dorothy DiOrionA truly interesting compilation of scholarly analysis and selected posters from the World War I era. Beautifully illustrated in full color plates from a variety posters produced in the different countries involved in this war. For each poster, Dr. Linder offers a fascinating discussion of pertinent information regarding details of the scene depicted, commentary on the verbiage that accompanies each image, and contextual information that prompted the creation of the poster. This book can appeal to the scholar as well as to the casual reader with an interest in history and in one of the major events to shape the lives of the world's people in the years that followed. Bravo to Dr. Linder for making this book available!0 of 0 people found the following review helpful. the art expressed in the War posters was a window into the culture and mindset of the various belligerents. The reproductions of the poster are vibrant, and the accompanying narratives had be going back time and time again to study the posters even more. I look forward to more like this from Dr. Linder in the future!0 of 0 people found the following review helpful. This book is outstanding. I learned a lot about that war that I never knew. She is doing one on World War 2 and I can't wait to get it when it's available.

Published during the war's centennial, this is the story of the First World War through forty propaganda posters. Essays explain each poster, unpacking the visual imagery and setting the poster within the military, political, social, and cultural history of the war.

About the AuthorAnn P. Linder has studied World War I for thirty years, focusing on its posters for the past decade. She holds a masterrsquo;s and doctorate from Rutgers and is the author of Princes of the Trenches: Narrating the German Experience of the First World War. She lives in Montgomery, Alabama.
