before purchasing it in order to gauge whether or not it would be worth my time, and all praised Yamaha Band Student, Book 1: B-Flat Clarinet (Yamaha Band Method):

By Elizabeth I took a star off because the Kindle edition isn't available on my computer (Windows) so I could only use it on my phone (I don't currently have a Kindle). Otherwise it's a great starter book for learning the clarinet. I always use Yamaha band series when I'm learning a new instrument and they definitely didn't disappoint this time. 0 of 0 people found the following review helpful. Great for getting back into it. By Shiloh I first started playing on this book and now

that it's been 7 years since I played clarinet regularly and 3 years since I played an instrument at all, this will be a perfect way to get back in the groove. The shipping on this was incredible, I ordered it three days after a different item and got it three days before the other item arrived.0 of 0 people found the following review helpful. Five StarsBy CMExcellent product is a very useful learning tool for the starter student

Yamaha Band Student will appeal to teachers looking for a well-paced lesson sequence that keeps students motivated to continue past the first critical year. It is affordably priced, attractively presented and meets the needs of today's students and educators. Each level includes numerous songs, duets, trios and four full-band arrangements right in the method itself---perfect for first-year concerts.
