Yamaha band student saxophone bookBy tanzyVery good book for someone who is just starting out on the saxophone0 of 0 people found the following review helpful. Good.By Gerardo Piero PavoneAmong the student books, these ones from Yamaha are the best. However, I wonder if they could make them more different depending from the instrument. They are basically the same whatever is the instrument, trumpet, sax, clarinet.0 of 0 people found the following review helpful. muchas graciasBy charlie paladinesmuchas gracias

Yamaha Band Student will appeal to teachers looking for a well-paced lesson sequence that keeps students motivated to continue past the first critical year. It is affordably priced, attractively presented and meets the needs of today's students and educators. Each level includes numerous songs, duets, trios and four full-band arrangements right in the method itself---perfect for first-year concerts.
