For further information about the Mahavidya I highly recommend *The Ten Great Cosmic Powers* by SBy Miss Pam This was one of the first books I read about Kali. I found it frustrating to read because there were so many words I did not understand. I did find the chapter about the Ten Wisdom Goddesses really interesting, and ultimately transformative. At that point I gave up on reading this book and spending so much time looking up definitions. So now, some years later, as a devotee of Kali, I have returned to this

book, to give it another try. And still, I have to spend a lot of time looking up Hindu words and concepts I know nothing about. The print edition cries out for a glossary or footnotes. Please. The Kindle version, however, makes for much easier reading and comprehension. For further information about the Mahavidya I highly recommend The Ten Great Cosmic Powers by S. Shankaranarayanan available here at [http://www.sanskritdocuments.com/](#), usually. It goes in and out of print. Sometimes it's available from UK. It is a difficult read, at least for me, but the information within seems to enter my consciousness nonetheless. 1 of 1 people found the following review helpful. For Those Wanting to Work with the Great Goddess Through Kali By Customer Fabulous and well-written book on Kali and her true identity as the Great Goddess. I enjoyed the author's explanations of the Indian traditions from firsthand experience. Sanskrit terminology difficult to understand, though. I would recommend this book to anyone who has been practicing yoga for awhile and is familiar with the Tantra path but would like to learn more. Also a good read for anyone hoping to get closer to the Goddess by working with Kali. 4 of 5 people found the following review helpful. This is a great book to help unlock the secrets of the dark ... By Jill M Tolhurst This is a great book to help unlock the secrets of the dark goddess Kali. Also, there is the understanding that Kali's force is not outside you, but our own dominate power, lying dormant within. A great read for anyone wanting to understand the power of this Goddess and learn how to harness that power within.

Yogic Secrets of the Dark Goddess unfolds the mystic beauty of Kali, the most powerful but misunderstood of the great goddesses of India. Probably the most comprehensive and innovative examination of Ma Kali in recent decades, the book reveals all dimensions of life and consciousness in Kalir's transformative dance.
