**Gladys Emerson Cook : You Can Draw Cats (Dover Art Instruction)** before purchasing it in order to gage whether or not it would be worth my time, and all praised You Can Draw Cats (Dover Art Instruction):

0 of 0 people found the following review helpful. Great Drawing BookBy ESHIt is a great book that I use to learn how to draw cats from. It has beautiful drawings and different kinds of cat breeds.1 of 2 people found the following review helpful. Nice poses but some problems...By Theresa ZayThere were a lot of nice poses and a good assortment of cat breeds, etc. However this book was not done by the best artist. Her drawing at the back of the book listing cat parts was pathetically out of proportion. She should have used her own drawings on the following pages showing the cat's muscular and skeletal structure to get it right. I expected more skilled lines and shading.

One of America's most beloved animal illustrators provides 194 gracefully regal drawings mdash; plus expert tips mdash; that will have any feline-loving artist purring with delight. From Angoras to Persians, Cook clearly

demonstrates the differences in breeds, and takes a walk on the wild side with big cats like pumas and lions. Additional topics include anatomy, movement, sketching, and materials. Artists at every level, from absolute beginners to the highly experienced, will appreciate this concise guide's many insights.
