From Palgrave Macmillan : Zizek and Media Studies: A Reader before purchasing it in order to gage whether or not it would be worth my time, and all praised Zizek and Media Studies: A Reader:

Film, media, and cultural theorists have long appealed to Lacanian theory in order to discern processes of subjectivization, representation, and ideological interpellation. Here, the contributors take up a Zizekian approach to studies of cinema and media, raising questions about power, ideology, sexual difference, and enjoyment.

"Flisfeder and Willis completely reshape our understanding of the history of psychoanalytic film theory by contextualizing it through Slavoj Žižek's impact. Žižek and Media Studies comes at a time when contemporary psychoanalytic film theory has changed substantially and this contribution is thus required reading." - Hilary Neroni, Film and Television Studies, University of Vermont, USA and author of *The Subject of Torture: Psychoanalysis, Biopolitics, and Media Representations* "One thing that makes reading Žižek so interesting and (let's be honest) entertaining is the way he engages popular culture and media. Unfortunately the impact of this effort has been largely underappreciated within the discipline of Media Studies. This book repairs that deficiency by developing a distinctly Žižekian approach to media scholarship. It is indispensable for anyone interested in Žižek and a must-read for students, teachers, and researchers in Media, Film, and Communication Studies." - David J. Gunkel, Professor, Northern Illinois University, USA and author of *The Machine Question* and *Heidegger and the Media*
